

## High Grade Ore Found in Old Vulture.

"If the people knew the truth about recent developments at the Vulture mine there would be the biggest excitement in the history of Arizona. The ore in the mine is so rich that the miners are now forced to change clothes when going on and off shift."

This statement was made today by J. C. Reed, who has just returned from Wickenburg, where he spent a week looking after personal business interests.

"The exact facts are hard to ascertain," continued Mr. Reed. "The Vulture people are not making anything public. Of course they will have to make an annual report and then something will be known concerning the true extent of the strike that has been made in that famous old gold producer."

"Around Wickenburg, however, it is generally understood that the Vulture people have a shaft down 200 feet in a vein forty feet wide that averages 35¢ a ton in gold. Millions of dollars' worth of ore is in sight."

"In the vein is a rich streak, from which thousands of dollars' worth of ore is being taken every week. Pieces of ore that are almost solid gold are a matter of frequent occurrence, according to report. It is in order to prevent the miners making away with this high grade stuff that the company has installed change houses."

"A number of prospects are being developed in the vicinity of the Vulture and some good ore is being opened in several properties."

"The Big Blue mine is shipping some of the richest copper and gold ore that I ever saw. Any day you can see ore that is not only beautiful but is surprisingly valuable, piled at the Wickenburg station ready for shipment."—Phoenix Gazette.

## Leaching Process Saves a Big Percentage.

The Boston News Bureau says: The entire attention of the Guggenheims in South America is apparently not to be devoted to the Braden Copper Co. for they have acquired interest in a property which it is claimed contains 100,000,000 tons of ore running between 1.34 per cent and 2 per cent copper.

Chuquibambilla is the name of a new 110,000,000 corporation which it will take over from the Chile Exploration Co. the property in question. It is understood that the company will offer for subscription the greater portion if not all of 15,000,000 7 per cent convertible bonds at par. The bonds will be convertible into stock at 25¢.

Of the 110,000,000 capital 15,000,000 will be held in the treasury to provide for bond conversion, while the remaining 95,000,000, according to persons having knowledge of the plans, will be retained by the Guggenheims and those affiliated with them in the property.

By the leaching process it is understood the owners expect to secure a 90 per cent extraction. Plans for a plant are said to call for the expenditure of 7,000,000. Already some 2,500,000 has been spent on the property.

## Most Prompt and Efficient Cure for Bad Colds.

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by all dealers.

## Notice of Stockholders' Annual Meeting.

The regular annual meeting of the Stockholders of the Arizona Western Mines Company, a corporation, will be held at the office of the company, Chloride, Mohave County, Arizona, on Monday, May 5th, 1913, at the hour of two o'clock p. m., for the purpose of electing a Board of Directors to serve for the ensuing year, and the transaction of such other business as may come before the meeting.

A. T. DUNBAR,  
President.

First insertion April 19—May 17

At the Magma active exploration by means of diamond drilling continues and recent holes have disclosed that the ore body with depth is fully as rich as the ore on the 800 foot level. Weekly shipments of 100 tons each are being steadily maintained to the El Paso smelter.

## Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.
